

NCTS-TYPE C TO HDMI

TYPE C TO HDMI ADAPTER

NCTS-TYPE C TO HDMI

Description:

[High-Resolution Mirroring and Enhanced Display Modes]: Mirror or expand your screen content with the high-resolution graphic images on your HDTV, monitor, or projector at up to 4K resolution at 30Hz. Share a movie with family and friends Home or to do a presentation in the conference room. The adapter ensures productive work and a clear visual experience.

[Stable signal transmission]: The superior copper core ensures optimal and stable signal transmission, works better without distortion, ghosting and blurring, and provides excellent audio and video quality.

[Universal Compatibility]: Supports all Type-C PCs, mobile phones, and tablets. 2016 / MacBook Pro, Surface Go, Surface Book 2, 2017 iMac, MacBook 2018/2017/2016, Samsung Galaxy S9 / S8 / S8 Plus / Note 8, Huawei Mate 10, HTC U11, Pixel Book,

Dell XPS 15 / XPS 13, HP Specter X360, Chromebook, Chromebook Pixel, Intel NUC and many other Type C devices are all compatible.

[Plug & Play]: No driver required, no software or complicated installation required.

Simply connect your device to the projector, monitor or HDTV using the adapter.

[Lightweight and Compact]: The ultra-lightweight, pocket-sized design is easy to carry and perfect for stowing your bag, purse and wallet to save space. Bendable cable with wear-resistant material is to be used permanently.
